Post: Important

Limits [Surface only]: Parcels shipped between First Class offices must weigh no more than 40 lbs. when shipped to the local, 1st or 2nd zones, no more than 20 lbs. addressed to the 3rd through 8th zones [gray shaded rows show such limits]. Parcels mailed at or to any Second, or Fourth Class post office or to or from any post office in or Hawaii must not exceed 70 lbs., regardless of zone.

Limits [Surface only]: Parcels shipped between First Class offices must not exceed 72 inches, length and girth combined. The limit for all other parcels is 100 inches.

Limit [Air and Surface]: Parcels measuring over 84 inches in length or more than 100 inches, but weighing less than 10 lbs. are charged a minimum rate equal to that for a 10 lb. parcel addressed.

Marking: All air parcel post packages should be prominently marked 'Air mail' on address and all other sides.

Post Outside Continental U.S.: The eighth zone rates apply to articles mailed between continental states or its territories and possessions and the zone, overseas Army-Air Force and Navy post offices, vessels addressed in care of Fleet post offices, and of the Trust Territory in the Pacific. Rates according indicated apply between the United States and Alaska, Mexico, and the Virgin Islands.

Insurance coverage with the Postal Service is mandatory up to the first \$1,000 of the declared value. All registration fees, including those for declared value up to \$10,000 provide insurance coverage. Insurance coverage is optional for items having a declared value of \$1,000.01 to \$10,000. Insurance coverage is not provided above \$10,000. Additional fees for protective handling are charged on that part of the declared value which exceeds the amount of postal insurance. Articles having no intrinsic value may be registered on payment of the 60-cent fee or any of the higher fees, including those above.

Self-zoning Parcel Post Rule

This is your rule for marking off the lines for the Parcel Post zone arcs from the point of your city on the map. See instructions on reverse side

Caution

Because Parcel Post Zones do not always follow exact boundaries, this map will not always be 100% accurate, but should be used to correctly place practically all your shipping points in the proper zones. When a given town or city is close to a zone boundary, you should play safe by checking with your local post office.

Instructions for inscribing Parcel Post zone arcs on map

1. Put thumb tack through dot on the other side of this rule where the arrow points to 'Your City.'
2. Then place rule on the map so that thumb tack goes through map at point where your city is located.
3. Then inscribe arcs for Parcel Post Zones by placing point of a pencil through the holes on the rule that indicate the various zone distances—in a series of six arcs.
